Tessa's Elegant Pen Holder.	54

Sample copy Jacquie Freugchat

Hello friends! Guess what? It's time to **re-decorate my bedroom!** Would you like to learn about **colours**, themes, and re-decorate your bedroom with me? Yay! There are so many **beautiful** colours in the world! Have you ever seen a rainbow after it has rained?

A **rainbow** has the colours: red, orange, yellow, green, blue, indigo, and violet—but there are so **many more colours!**

Did you know that there are three **colours** which are called **primary colours?** They are red, blue, and yellow.

Every other colour is made up of combinations of these three colours! The primary colours cannot be **created** by mixing any other colours.

The secondary colours are orange, green, and purple. These colours are made by mixing two primary colours together:

Yellow + Red = Orange

Yellow + Blue = Green

Red + Blue = Purple

A colour wheel can help us **decorate our room!** The colours that lie opposite each other on the colour wheel always go well together. They are called **complementary colours.**

The last six colours are called **intermediate colours**. They lie between the **primary and secondary colours** and are:

Blue Violet

Red Violet

Red Orange

Yellow Orange

Yellow Green

Blue Green
